[About Us]

AUDIO

1. What We Used Audio For:

- Narration of Text:** Professional or AI voiceovers read the book aloud.
- Character Voices:** Different voices for each character to make it fun.
- Sound Effects:** Background sounds like rain, birds, footsteps, etc.
- Background Music:** Soft music to match the mood of the story.

2. Why Audio Matters:

- Improves understanding** for early or struggling readers.
- Great for auditory learners** who learn best by listening.
- Makes reading more fun** and immersive.
- Supports accessibility** for visually impaired users.

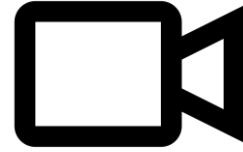

3. Tools We Used:

[Mention the tools you used, e.g.:]

- Audacity** (for recording/editing)
- PowerPoint audio embedding**

VIDEO

Video Integration in Our eBook

1. How We Used Video:

Story Clips: Short videos showing scenes from the college

Animated Elements: Simple animations to make pages more dynamic

Explainer Videos: To clarify concepts or events in the book

Author/Character Messages: Short recorded messages or introductions from our teachers

3. Tools We Used:

PowerPoint – for embedding and playing video

Canva Pro – for animations and video layouts

YouTube – for hosted educational clips

FlipHTML5 / Book Creator – to embed videos in eBooks
